Greetings from the Chancellor

Welcome to
Yonsei University Wonju Campus

Founded in 1978, the Wonju Campus is one of the three campuses in the Yonsei University system. It is a diverse learning community, with more than 7,000 students from all over Korea and student body that reflects the face of our society. International students from East Asian countries, North America, and Europe make up a growing portion of the student population.

The Wonju Campus is well known for the strength of its undergraduate education, where its students learn to lead and serve not only through a strong academic curriculum but also by participation in a host of extracurricular activities, from athletics to community service, in its residential college system.

The Wonju Campus is also a major research university in certain fields of study including Biomedical Engineering, Chemistry & Medical Chemistry, Modern Korean Literature, and Poverty Alleviation Studies. Led by a distinguished faculty, it is the home of world-class research on the graduate level. In the diversity of its students, its global outlook, and its outstanding education and research, the Wonju Campus is a place of compelling change.

We welcome your interest in Yonsei University Wonju Campus and in our community. Please explore the campus website to learn more. We hope you will have an opportunity to visit our beautiful campus in person to discover what makes the Wonju Campus special and why Wonju is consistently ranked among the most favored and livable cities in Korea.

CHUNG Kun sub, Ph.D
Chancellor of the Yonsei University Wonju Campus
About Yonsei
Wonju Campus Overview

Continuing the Yonsei Legacy: Making Dreams Come True in Wonju
When the Wonju Campus was established, it inherited the 130-year history and spirit of Yonsei University. Now, the campus invites talented young students to carry on the future of Yonsei through joint activities with the Seoul campus in the areas of education, research, administration and finance. With an independent master plan of its own for further development, the Wonju Campus contributes to the community and the country including Gangwon Province’s winning bid for the 2018 PyeongChang Winter Olympic Games.
Yonsei Mission, Spirit and Founding Philosophy

Yonsei University is a center for learning based on the principles of Christian teaching which strives to educate leaders who will contribute to society in the spirit of truth and freedom. Yonsei people embrace the culture of the nation and of humanity, and foster creative and critical thinking in the pursuit of scholarship. Yonsei people also nurture the sense and spirit of justice, work with an open mind in service to their neighbors, and contribute to the growth of humanity.

“If you continue in my word, you are truly my disciples, and you will know the truth, and the truth will make you free.” (John 8: 31~32) With its founding purpose based on the Gospel of John, Yonsei University seeks to cultivate leaders who follow the Christian principles of truth and freedom.

Yonseians are educated based on strong morals, ethics and humanism, and they are trained to be able to criticize and evaluate themselves throughout their lives. They are taught to be leaders with mutual understanding and respect, the spirit of cooperation, and the Christian principles of love, service and sacrifice. There are about 300,000 Yonsei alumni who are working in every part of society with a central role of developing the nation, peoples and the world. They contribute to maintaining fellowship among alumni, to heightening Yonsei’s reputation, and to improving the university’s educational environment. We, the Yonsei community, taking this mission to heart, commit ourselves to strive to be leaders who embody in the world this proud Yonsei spirit.

University Symbol

The “○” and “iards” the University shield are derived from the first letters of “언새” (Yonsei). The circle “○” represents the ideal of a complete and well-rounded person, while the “iards” symbolizes the upward struggle for scholarly excellence. In addition, the “○” stands for Heaven, the “iards” represents the horizon of the Earth, and “iards” signifies “Man” as expressed in the Chinese character(人). The open book stands for Truth, the torchlight signifies Freedom, and the shield protects these two core principles of the University.
Korea's First Residential College (RC) Program

http://wced.yonsei.ac.kr/ysrc

Promoting harmonized
development of academic achievement, artistic sensitivity,
and morality in a natural wooded setting - a new model for
Korean college education!

Yonsei University Wonju Campus has the first Residential
College (RC) Program in Korea

With its Residential College (RC) program, Yonsei University Wonju Campus
has initiated an advanced education program for freshmen, following the
model of prestigious overseas universities. Since 2007, Yonsei University
Wonju Campus has implemented a remarkable mentoring education
program in which all freshmen live together in the same dormitory with the
full support and guidance of experienced professors and excellent students.

The Residential College (RC) Program

The Residential College (RC) Program is an advanced educational model
adapted from world-renowned British and American universities such as
Oxford, Cambridge, Harvard, Yale and Princeton. This advanced model
enhances relationships between professors and students by bringing them
together in dormitories on campus. This program provides students the
opportunity to participate in intellectual and social activities, thereby helping
them to adapt smoothly to the culture of the university.

Residential Colloquia Offer Exciting Intellectual Stimulus

Our Residential Program focuses on developing the students’ full human
potential. This program allows professors and students to select freely a
subject based on their interests and cooperate with each other in conducting
projects that may be outside their majors.

This Residential Colloquia program is offered to small groups of 15–16
students. The program encourages students to solve problems more
effectively and efficiently. In today's knowledge and information based
society, knowledge changes rapidly and students must learn to adapt to
such changes.
Program for International Students

http://yiec.yonsei.ac.kr

Exchange Students

The Wonju Campus of Yonsei University welcomes international students from all over the world. International students can study at the Wonju Campus either by regular admission or by participation in an exchange program. Exchange students are those who have applied and are nominated by an overseas university under a formal exchange agreement. Since they pay the tuition to their home university or the university pays it, the application and documentation fees as well as tuition are waived at the host university. Admission to one or two semesters of the exchange program is open to students who have completed at least two semesters (or the equivalent) of university level work at an accredited institution outside of Korea. Admission is based on a review of the documents submitted, which include a recommendation letter, a personal statement, and required GPA.

Housing

The dormitories Maeji Haksa, Seyon Haksa and Cheongyon Haksa have the equipment and facilities required in this age of information technology and globalization. They can accommodate up to 3,730 students in doubles, triples or quads. Housing is available to undergraduate students, graduate students and exchange students, with separate buildings for men and women. Usually, a mix of Korean and non-Korean students lives together in order to provide an international atmosphere. Each room is equipped with LAN connections for free Internet use. The dormitories are also open during the summer and winter vacations.

For more information, visit http://maeji.yonsei.ac.kr/~mjdorm

Off-campus housing is also available within walking distance. Studios consist of one room along with a bathroom and kitchen area. A key money deposit is required, usually between 500,000 and 1,000,000 KRW, along with the monthly rent, between 200,000 and 500,000 KRW.
Leisure Activities

Wonju, Gangwon-do, is just an hour and half trip from Seoul. Located in the vicinity of Chiak Mountain and near numerous beaches of the East Sea coast, Wonju is one of the most famous tourist attractions in Korea. Wonju is also known as a place for leisure sports such as skiing, rafting, mountain biking, scuba diving, and many more activities. Students can enjoy their free time while experiencing Korean culture in these natural surroundings.

Global Village Program

The Global Village, GV, is a leadership program where both Korean and International Students live together, adapt to and learn from cultural differences, and make unforgettable friendships.

For better understanding of each other’s language and culture, GV program provides both formal and informal education, which includes some university courses designed only for GV program participants, Mutual Mentor Sessions, Team Meetings, special events and 2 field trips.

The GV Program began with English program but it was extended to also include Chinese and Japanese in 2010. For international students participating in the Global Village Program we offer financial aid, which covers travel and living expenses. For further information regarding Global Village Program, please visit http://global.yonsei.ac.kr

Korean Language Courses for International Students

Yonsei University Wonju Campus offers Korean language courses. These courses are designed for international students who plan to study at universities in Korea.

The goal of the courses is to equip students with a sufficient command of the Korean language to pursue undergraduate or graduate programs in Korea.

The Korean language courses are offered at six different levels. Each level consists of a ten-week long term. It takes 18 months to complete all 6 levels. Classes are offered four hours a day, five days a week, during the ten-week term.

A high school diploma or the equivalent is the minimum requirement for admission to the program.
Admissions Guide
Applicants whose parents both have foreign nationality are considered foreign students. The admission process includes a review of documentation followed by an interview.

Scholarships
There are approximately 150 scholarships offered to undergraduate students and about 20.1 billion won is given to 4,800 students annually. There are many scholarships available for freshmen. Those students who receive scholarships, either for academic achievement or for special talents, can keep those scholarships through graduation if they maintain a certain GPA level and participate in selected activities.

College of Engineering
Division of Humanities

The Division of Humanities has four departments: Korean Language and Literature, English Language and Literature, History and Culture, and Philosophy. The Division of Humanities focuses on research and education in the humanities, which includes such skills as achieving high proficiency in language and developing logical thinking. The division offers required courses which allow students to study the humanities in depth. Students focus on the creation, progress, and transition of human literature as the aim of the division is to develop qualified human resources for the new era.

Division of Design and Art

The Division of Design and Art has three majors: Industrial Design, Visual Communication Design, and Digital Art. The Division of Design and Art focuses on research and education in the specific area of product design, graphic design, space design, media design, interface—interaction design and digital art, giving specialized course works. The division provides first year students with required courses of design and art fundamentals and introductory lectures, including liberal art and sciences. It offers the B.S. degree (Bachelor of Science) for students who complete industrial design, the B.D. (Bachelor of Design) for students who finish visual communication design—related study, and the B.F.A (Bachelor of Fine Arts) for digital art students.
The College of Government and Business has two divisions: the Division of Social Sciences (Economics, Public Administration, and International Relations) and the Division of Business Administration.

The College also offers two interdisciplinary majors: International Commerce and Venture Entrepreneurship, and an interdisciplinary Honor Program in Finance. The faculty of the College has grown considerably over the last two decades. To ensure high academic standards, the College has recruited highly qualified scholars from world-class academic institutions. The expertise of the current faculty members enables the college to keep abreast with the most recent developments in education and research.

Division of Social Sciences
Economics
Public Administration
International Relations

Division of Business Administration
Business Administration
The College of Science and Technology was established to promote education and research in the areas of natural and applied science and technology. Our nationally renowned 53 faculty members have been actively involved in various educational and research projects at the local and national levels.

The college is composed of five divisions which include the Division of Natural Sciences, the Division of Biological Science and Technology, the Division of Applied Sciences, the Division of Computer and Telecommunications Engineering, and the Division of Semiconductor Systems Engineering.

Division of Natural Sciences
Mathematics
Physics
Chemistry & Medical Chemistry
Information and Statistics

Division of Biological Science and Technology
Biological Science
Applied Biological Science

Division of Applied Sciences
Packaging Materials

Division of Computer and Telecommunication Engineering
Computer Engineering
Information & Communication Engineering

Division of Semiconductor Systems Engineering
(Special Degree Program with SK Hynix Inc.)
Semiconductor Engineering
Industrial Engineering
The College of Health Sciences has established itself as a leading pioneer in the public health field. It contributes to the advancement of society by training leaders in the specialized fields of Environmental Engineering, Biomedical Engineering, Health Administration, Biomedical Laboratory Science, Occupational Therapy, Physical Therapy, and Radiology. Lectures and laboratory practice provide an excellent foundation for the specialized education needed to produce leaders who are to play a central role in the public health field. The College of Health Sciences offers the Bachelor of Science degree, Master of Science degree, and Doctor of Philosophy degree in all departments.
Wonju College of Medicine

http://medical.yonsei.ac.kr

Wonju College of Medicine has three departments: the Department of Medicine, the Department of Nursing (including Registered Nurse—Bachelor of Science in Nursing program) and the Department of Dental Hygiene.

The goal of the college is to educate and train students to become competent, credible, and confident medical professionals who demonstrate the love of God.
EastAsia International College (EIC) was founded by Yonsei University Wonju campus in 2008 as a special program to develop professionals to play leading roles in the global age of the 21st century. Offering courses exclusively in English, EIC has two major tracks of study: East Asian Politics and Culture and East Asian Economy and Business. During their first two years, students take courses in the liberal arts to fulfill general education requirements while during their third and fourth years, they take courses in their major fields. Students are also required to study an East Asian foreign language, including Chinese, Japanese, Russian, or, for foreign students, Korean. Other activities students may pursue include studying in foreign countries and working as interns in leading companies and organizations.
Graduate School

http://graduate.yonsei.ac.kr

Founded in the spirit of Christianity, the Graduate School aims to contribute to the advancement of world civilization by providing in-depth specialized education and research opportunities. Our graduate school has set up a credit transfer system with other major Korean universities, which means that our students can expand the opportunities to take a great variety of courses.

Professional Graduate School of Government, Business and Entrepreneurship

http://yonseigsb.ac.kr

The GSGBE was established as a training ground for government, public officials and managers in private businesses. The primary emphasis of the School is on offering systematic and effective training in management skills and techniques to improve administration in key areas. Since 1990, the School offers a five-semester Master's degree program in six major areas: Economy, Business Administration, Public Administration, Politics, Educational Administration and Global Welfare. The School also offers public enterprise cooperation programs in two major areas: Entrepreneurship and Community Development Leadership (KOICA). The School has launched a short-term Executive Management Program in order to help administrators play a major role in the international community by providing them with up-to-date management skills and techniques.

Professional Graduate School of Health and Environment

http://pioneer.yonsei.ac.kr

The GSHE was established to produce qualified specialists and to further research in the field of public health and the environment. The program is designed for highly motivated professionals with related work experience in five fields: Health Administration, Environmental Engineering, Biomedical Laboratory Science, Ergotherapy, and Medical Engineering. Students are trained to interact with people of various economic and social levels, to protect the environment, to produce health policy legislation, to identify and evaluate the economic impact of changing demographics, and to deal with difficult issues in the public health arena.

Today's society faces serious health problems including new and devastating infectious diseases, problems related to an aging population, spiraling health-care costs, and environmental pollution resulting from rapid industrialization and urbanization. The mission of the School is to meet these challenges by promoting achievement in academics and helping students develop practical skills in a work environment, which allows them to combine their work experience with state-of-the-art techniques and new knowledge.
Campus Facilities

Dormitories
The Wonju housing complex (Maeji Haksa, Seiyon Haksa and Cheongyon Haksa) consists of eight buildings housing approximately 3,741 students. Dorms are equipped with computer labs, lounge areas, study areas, a lecture room, a prayer room, music rooms, and laundry facilities. All incoming freshmen can be accommodated in the dormitories. All dormitories are equipped with air-conditioning, refrigerator and high-speed Internet connections.

Sports Center
The Yonsei Sports Center occupies a facility, which was built in 2003. At the Sports Center, students can participate in a variety of activities to keep in shape. The Center has basketball, volleyball, handball, and squash courts, a gymnasium, a fitness club, a rock climbing facility, and an indoor swimming pool with an aqua health pool as well as a scuba diving pool.

Yonsei Plaza
Yonsei Plaza is equipped with various amenities, including a large, well-stocked bookstore, a bank, a mail center, a copy station, a laundry, a convenience store, an optical store, a student cafeteria and a snack area. The Plaza also has PC labs, language labs and many other places students can go to get their work done.

Library
The Library’s collections include 505,681 books, 4,903 printed periodicals and 9,621 electronic periodicals. This building has 6 floors including the underground, 1,196 seats. An Interlibrary loan service enables users to obtain non-Yonsei materials from other libraries such as Shinchon Central Library, Shinchon Medical Library, Wonju Medical Library and libraries under KERIS agreement.

Student Union
The Student Union is the center of activity for students. The building features facilities for campus communities, including a diner, food court, convenience store, exhibition room, small-size theater, music listening room and lounges. The building also provides a variety of services and support for students organizations such as the Student Welfare Center, Human Resources Development Institute, Counseling and Coaching Center, Health Mutual-aid Association, and Disabled Welfare Center.

The Student Union also provides facilities and services for supporting independent student organizations such as the Students Association, Club Association, and Student Press Union.
Research Institutes

Yonsei Wonju Campus pursues strong partnerships with government, industry, and other universities in the research of key technological areas such as medical engineering, rehabilitation engineering, high-tech medical equipment, eco-technology, entrepreneurship and many more. Since its inception, the Wonju Campus has worked hand in hand with companies and government institutes in research and development, fostering and producing high-quality professionals in these areas.

University-Wide Research Institute
Institute for Poverty Alleviation and International Development (IPAID)
http://ipaid.yonsei.ac.kr

The Institute for Poverty Alleviation and International Development (IPAID) was established as a university-wide research institution in March 2010. The National Research Foundation (NRF) of Korea chose IPAID as one of its Core University Research Centers that year. IPAID seeks to work with international institutes and researchers to help identify the causes of poverty and create solutions, and to share the Korean development experience with other countries. Programs at the IPAID office at Yonsei University-Wonju include weekly forums with respected academics and experts, international conferences, and a graduate program on rural society leadership development for global poverty reduction.

Institute for Convergence Study of Bio-Medical Wellness (i-BMW)
http://ibmw.yonsei.ac.kr

i-BMW was established in May 2013, unified from 5 previous key institutes (Institute of Medical Engineering, Institute of Biomaterials, Institute of Health and Welfare Institute of Health Science and Institute of Lifestyle Medicine) in order to strengthen global convergence researches. It perform research or medical devices, workplace wellness, and lifestyle wellness and cultures based on systematic collaboration among medical, health, welfare, science and engineering, experts.

Intercollegiate Research Institute
Institute for the Study of Korean Modernity
The main purpose of this institute is to investigate the modernity of Korea. Activities include publishing collection of literature, history, philosophy and issuing periodically a series of modern Koreanology.

College Affiliated Research Institute
Eco & Culture Design Institute
Institute of Basic Sciences
Institute of Environmental Science and Technology

Institute of Hair and Cosmetic Medicine
Institute of Occupational & Environmental Medicine
Campus Life

Smart Eco Campus
Nestled at the foothills of Chik National Park, Yonsei University Wonju Campus boasts a campus of stunning natural beauty and is arguably one of the most scenic campuses in Korea. The campus is located 85 miles southeast of Seoul in Gangwon Province. The campus occupies 470 acres of land at the base of the White Cloud Mountains overlooking a lake. Among Korean universities, Yonsei University Wonju Campus received the first ISO 14001 Environment Management certification.

Christian Life
Yonsei strives to nurture its students based on strong morals and ethics as well as responsibility to both the nation and to the world. Students are taught the importance of developing a sense of duty as leaders to help resolve regional and social problems through the Christian principles of love, service, and sacrifice. The college is dedicated to grooming leaders who possess mutual understanding, respect, and the spirit of cooperation. Students are required to attend a weekly one-hour chapel session for four semesters as one of the graduation requirements. They are also expected to meet a community service requirement during their first year.

Concert Series
The Yonsei University Concert Series began in the fall of 2006. There had been 66 series by the spring of 2014. Each year, the series features a diverse range of music, including both western and Korean classical music, and jazz. The concerts entertain not only students, faculty and staff, but also members of the Wonju community at large, and have become one of the major cultural attractions in the city.
Student Activities

At Yonsei, students have abundant opportunities to explore non–academic as well as academic activities outside the classroom. With more than 53 student groups and organizations representing the areas of academics, music, religion, arts and crafts, community service and various sports, students are sure to find something that matches their interests. The school actively supports student extracurricular activities.

Yonsei–Korea Friendship Sports Festival

Every year Yonsei University and Korea University co–host a series of sports matches called the ‘Yongojeon’ which are intended to promote university spirit and build fraternity between the two schools. The festival consists of baseball, basketball, ice hockey, rugby and soccer competitions.

Parents Day

The first Parents Day in Korea was introduced at the Yonsei Wonju Campus in 2007. The event seeks to provide parents with important information and the vision needed to assist undergraduate students in making a successful transition to college. The eighth event, on May 23, 2014, invited over 500 parents to share the progress being made by both students and the university.
